

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Gary A. Freeman et al.
Serial No. : 08/962,271
Filed : October 31, 1997
Title : ELECTRODE PACKAGE

Art Unit : 3728
Examiner : J. Foster

Assistant Commissioner for Patents
Washington, D.C. 20231

RESPONSE

In response to the notification of incomplete response mailed January 14, 2000,
please amend the application as follows:

In the claims:

13. (Amended) An electrode package in which one or more adhesively-applied skin electrodes may be sealed, said electrode package comprising:
a first adhesively-applied skin electrode,
a first compartment containing said first electrode,
a releasable seal adapted to seal said first compartment and maintain said first electrode in a sealed mode in which said first electrode is not exposed to an external environment,
a connector of said first electrode, said connector comprising at least one terminal adapted to make and break an electrical connection,
a second compartment outside of said first compartment and containing said connector of said first electrode, and
a barrier element positioned at said releasable seal and providing an electrically conductive path between the first electrode and the connector without exposing the first electrode to the external environment.

CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Assistant Commissioner for Patents, Washington, D.C. 20231.
